# *Application*

---

Blended Naturals Organic Shea lip butter easily glides onto your skin.

To reap additional benefits from the lip butter, exfoliate skin first and then apply lip butter.

Due to the delicate nature of this lip butter, do not use pressure when applying to your skin.

Reapply after eating, kissing or any time lips need a retouch.

# *A Word On Ingredients & Storage*

Shea Butter is easily emulsified due to its delicate state.

Store in cool temperatures to prevent melting and separation of essential oils. Preferably, not above 60 degree Fahrenheit.

Always recap after use.

Should your lip butter melt due to high temperatures, keep capped and refrigerate for 10 minutes.
